Understanding HST

In July the BC government announced its intention to harmonize the provincial sales tax with the federal GST, effective July 2010. The resulting harmonized sales tax (HST) will be set at a rate of 12% and the provincial sales tax will be eliminated. The Chilliwack Chamber of Commerce has now had the time to study and review the changes and how they will affect different sectors of our membership in both positive and negative ways.

The Chilliwack Chamber of Commerce is committed to assisting our membership navigate and understand these changes, and today is announcing an "Understanding HST" resource site located at our website: www.chilliwackchamber.com. The growing resource site will include relevant documents, downloads, video, and media links for our members to access and utilize to help benefit from the HST and to mitigate the possible negative impacts the new tax will have on our members businesses. Further to our library of resource documents the Chamber has launched a dedicated help email - hsthelphelp@chilliwackchamber.com for members who require additional information, resources and referrals.
